

Y'chad'sheihu

(for Elul)

65g

Version 2

Trad.
Arr. Stuart Izon

It is traditional to use the Ma'ariv High Holy Day melody for blessing the month of Elul. Personally, I have some reservations about using this theme, as it actually belongs to Tishrei (a month for which we don't perform Birkat Hachodesh), and there are other Elul options we could reference from S'lichot. Nevertheless, this is what all the classic scores which detail these monthly melodies propose.

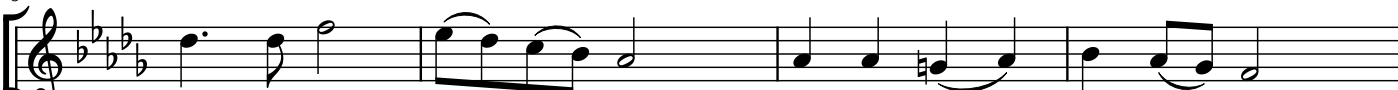

The melody itself is of ancient origin, used by both the Polish and German traditions during Ma'ariv, and is actually derived from the Great Aleinu which we say during Musaf on Rosh Hashana and Yom Kippur.
